

# Campaigning

We ensure that the voice of people with sight loss is heard, breaking down the barriers that prevent them from living a full and rewarding life.

It is our policy not to be influenced by an existing or potential commercial and/or corporate relationship.

We are fully committed to only campaign in line with our values and code of business conduct that are in support of our purpose.

All our campaigning is based on evidence and led by the needs of people with sight loss.
